To Whom It May Concern,

I had the opportunity to present student assemblies and an evening parent workshop at The Child School on Oct 19th. I was so impressed with the administration, students, and staff.

I have Dyslexia, ADHD, and Central Audio Processing disorder. I wish I had gone to The Child School when I was a kid! It felt like family. I could tell that the teachers truly love and care about the students and work hard to help them be successful. It was clear to me that, for the staff, it was more than a job, it was a calling.

The students told me themselves how much they like the school. I heard many statements like, "I used to get bullied at my old school, but not here, I like it here and they understand me here" Students also openly shared their struggles and challenges, this shows they are in a healthy environment.

I've toured schools in every state except Hawaii, rarely do I meet teacher and staff so adept at instructing and inspiring students with special needs.

Sincerely,

Keith Deltano
